**This beautiful hardcover art book allows you to travel through all of your favorite movies -- from NORTH BY NORTHWEST to MAD MAX:FURY ROAD -- via a series of beautiful, intricately-detailed hand-painted maps.**

Acclaimed artist Andrew DeGraff has created beautiful hand-painted maps of all your favorite films, from King Kong and North by Northwest to The Princess Bride, Fargo, Labyrinth, Pulp Fiction, even The Breakfast Club - with the routes of every major character charted in meticulous cartographic detail. Follow Marty McFly through the Hill Valley of 1985, 1955, and 1985 once again as he races Back to the Future. Trail Jack Torrance as he navigates the corridors of The Overlook Hotel in The Shining. And of course you'll join Indiana Jones on a globe-spanning journey from Nepal to Cairo to London on his quest for the famed Lost Ark. Each map is presented in a large 11x14 format, with key details enlarged for closer inspection. The paintings are accompanied by illuminating essays by film critic A.D. Jameson, who speaks to the unique geographies of each film. This beautifully designed atlas is an essential reference for anyone who loves great art and great films.

\* Fun mix of classic films (Metropolis, King Kong, North by Northwest), pop culture classics (Raiders of the Lost Ark, The Breakfast Club, The Princess Bride) and contemporary favorites (Guardians of the Galaxy, Mad Max: Fury Road).

\* Andrew DeGraff's previous book, PLOTTED (a collection of literary maps), was a indie bookstore favorite.

\* Packed with illustrations on every page.
