Key Notes

This colorful concept book is like no other, with gatefolds that reinforce a series of comparative adjectives.

Selling and Marketing Points

- **A new twist on concepts:** Teaches linguistic concepts not often addressed in picture books.
- **Language arts:** Simple illustrations and minimal text are well-suited to children starting to use adjectives to compare size, distance, length, and quantity.
- **SAMi for older kids:** Makes SAMi's artwork available to children who are ready to move beyond the content of the Flip-a-Face and Flip-a-Shape series.

Description

Young readers are introduced to adjectives like big, bigger, and biggest; far, farther, and farthest; high, higher, and highest. The brightly colored fold-out illustrations make each concept easy to understand: by unfolding the page, you can see a tall building get even taller, and then become the tallest one in the whole city!
